## RUSSIAN REDS MUST CHOOSE PEACE OR WAR

### FRANCE DECIDES TO PARLEY WITH REDS EVEN THOUGH U. S. NOT REPRESENTED

Millerand Reaches This Decision  
Following Conference  
at Boulogne.

ALLIES DEMAND THE  
RIGHT PARTICIPATE

In the Forthcoming Peace Con-  
ference to be Held at  
London.

(International News Service)  
LONDON, July 28.—The question  
of peace or war in eastern Europe  
was put squarely up to Russia today  
by the allies. France and Great  
Britain are in complete accord on the  
new Russian policy. A new note has  
been sent to Moscow notifying the  
soviet government that the Russian  
must consent to a general peace par-  
ley with the allies as participants.  
The presence of Marshal Foch at  
Boulogne indicates that military mea-  
sures for the protection of Poland were  
discussed, should the Russo-Polish  
war again break out.

(International News Service)  
PARIS, July 28.—France has finally  
decided to participate in a peace  
parley at London to discuss recogni-  
tion of the soviet government, but  
only on condition that Russia meet the  
terms of the new note which the al-  
lies have dispatched to Moscow.  
The note calls for active participa-  
tion by the allies in the peace con-  
ference.

The news that France may take  
part in the proposed peace conference  
was made public after the return to-  
day of Premier Millerand from Bou-  
logne. France will insist upon re-  
serving liberty of action along with  
her allies in respect to recognition of  
Bolshevik Russia.

Another result of the Boulogne  
conference is that France probably  
will not insist that American repre-  
sentation is necessary at the proposed  
general conference in London.

### UPRISING IN GERMANY

(International News Service)  
BERLIN, July 28.—A plot for a  
Bolshevik uprising in Germany as  
soon as the red troops cross the  
frontier and the declaration of a Bol-  
shevist government has been discovered.  
The Lokal Anzeiger announced to-  
day.

### MORE TOWNS TAKEN

(International News Service)  
BERLIN, July 28.—The Bolshevik  
army is sweeping into Galicia and  
has captured Tarnopol and Brody, ac-  
cording to a war office communique  
wireless from Moscow.

### ARABS MUST PAY

(International News Service)  
PARIS, July 28.—A reparations  
penalty of 10,000,000 francs has been  
imposed upon Syria by the French  
military administration because of the  
Arab uprising. The king has been  
deposed and a new government set up  
at Damascus.

### DEMAND GUARANTEE

(International News Service)  
PARIS, July 28.—The soviet gov-  
ernment of Russian announces in a  
wireless today that Bolshevik troops  
"will occupy Bileostok and Suwalki  
before an armistice is concluded with  
Poland as a guarantee."

### DAYTON WILL PAY TRIBUTE TO COX

(International News Service)  
DAYTON, July 28.—With the clos-  
ing of banks, stores and factories and  
the suspension of public business,  
Dayton and Miami Valley on Friday  
will pay neighborly non-political tri-  
bute to Governor Cox in a monster  
"home coming" celebration.  
Immediately preceding the parade,  
Mayor Switzer will make a short ad-  
dress. Governor Cox will reply and  
will then review the parade.

## Negro is Wounded By Little Brother of Child He Shot

REESE LAMON, AGED  
THREE YEARS, HURT  
SERIOUSLY DURING  
AFFRAY NEAR FLINT

Andy Robinson and Son, Ne-  
groes, Are Held in Morgan  
County Jail.

MUCH EXCITEMENT IS  
CAUSED BY DIFFICULTY

Defendant Arrested at Home  
and Brought Here in an  
Automobile.

Andy Robinson and his son, John  
Henry Robinson, negroes, are held in  
the Morgan County jail today and  
little Reese Lamon, aged 3 years, son  
of Mr. and Mrs. S. H. Lamon, is at  
the Benevolent hospital in a serious  
condition as a result of a shooting  
affray near Flint shortly after four  
o'clock Tuesday afternoon.

Andy Robinson is suffering from 29  
squirrel shot wounds received from a  
gun in the hands of Elbert Lamon, 12  
year old brother of the wounded child,  
who fired, it is said, after the negro  
had shot Reese in the face, inflicting  
injuries which may cost the sight  
of both his eyes.

The shooting created much ex-  
citement in the Flint district and crowds  
of men collected quickly. Officers  
here were notified and Patrolman  
Newt Thompson jumped into an auto-  
mobile driven by Chairman of the  
Police Committee W. V. Davidson and  
the two local officers led in the  
search for Robinson, who was found  
at his home a short distance from  
Flint. His son had previously been  
sent in search of Dr. Dinsmore, who  
treated the negro's wounds in the  
county jail this morning.

### Lamon's Story

According to the story told The  
Daily this morning by Mr. Lamon,  
who was at the Benevolent hospital  
with his baby, there had been a dif-  
ficulty with the negro earlier in the  
day, when Robinson, who was doing  
some hauling for Charley Poole, is  
said to have been instructed not to  
drive on land which had been planted.  
Mr. Lamon said the negro drew a  
knife on him. He was armed with  
an axe. The argument was settled  
without serious consequence, it was  
thought, but yesterday afternoon Mr.  
Lamon said the negro approached,  
walking, with a gun in his hand.  
"I didn't think he would shoot my  
family," Mr. Lamon said. "I was  
standing behind the engine of my saw  
mill. My smallest son was about 10  
feet distant and my other son, Elbert  
was behind the boiler. The negro  
opened fire and the load hit Reese.  
I immediately picked the child up and  
Elbert grasped my shot gun and fired  
at the negro. The latter then left."

### Boy Shows Gameness

In the face of the fire from the  
negro, the act of Elbert Lamon was  
the subject of much comment here to-  
day, the little fellow displaying gam-  
eness to a remarkable degree.

Robinson, from his cell in the Mor-  
gan County jail denied that he shot  
at Reese. He said that when he ap-  
proached the saw mill on the last  
trip he thought the Lamons were  
maneuvering for advantages from  
death of "Red" Nelson. He declared he  
did not know who fired first, himself  
or the Lamon boy.

Robinson is suffering from 29  
wounds, inflicted, Dr. Dinsmore said,  
by small shot, commonly known as  
squirrel shot. Most of the wounds  
are not serious, but one is believed  
to have entered Robinson's right lung  
and another his liver. The others, for  
the most part, were in the fleshy  
part of the defendant's right arm.

(Continued on Page 2.)

FERNANDEZ HELD  
AT SALTILLO AND  
MAY BE E. LEROY

(International News Service)  
SAN ANTONIO, July 28.—Oscar  
J. Fernandez, who has been sought in  
connection with the murder of Mrs.  
Katherine Leroy, was located at Sal-  
tillo this afternoon. Fernandez and  
Leroy may prove to be the same, police  
believe.

### HUNTING FOR LEROY

DETROIT, July 28.—Solution of  
the mystery surrounding the death of  
Katherine Jackson Leroy, whose mu-  
tilated body was found in a trunk in  
a New York baggage room, is as far  
removed today as on the day the body  
was discovered. The hunt for Eu-  
gene Leroy has been taken up all  
over the U. S.

Chief of Detectives Fox said this  
morning that he expected a lot of  
information from A. A. Tatum, of  
Birmingham, when he is questioned  
today by Detective Smith, of Detroit.

### NO NEW DEVELOPMENTS

BIRMINGHAM, July 28.—No new  
developments occurred here in the New  
York trunk murder mystery up to  
noon today. Detective Smith, of De-  
troit, was here and quizzed A. A.  
Tatum, but did not finish and no un-  
nouncement was made other than  
that Tatum might be taken to De-  
troit later.

### CITY BEAUTIFUL IDEA GETS BOOST

CONTRACTORS TO LEVEL SPACE  
BETWEEN CURB AND SIDE-  
WALK, LUND ANNOUNCES.

H. M. Lund, of the firm of Lund &  
Hill, Albany city engineers, is here  
today on a trip of inspection in con-  
nection with the street paving that  
is now being done, and expressed  
himself as pleased with the progress  
made.

Mr. Lund called attention to the an-  
nouncement of the contractors that  
they would level the land lying be-  
tween the curb and the sidewalk, so  
that it could be beautified by property  
owners and either sodded or planted  
in flowers.

"By utilizing this space appro-  
priately, much can be done to add to  
the appearance of the city," Mr. Lund  
said.

It was also stated that the railroads  
were considering the draining of the  
low land on the right-of-way, thus  
contributing a bit toward the preser-  
vation of the public health.

### WILL MONTGOMERY GIVEN FIVE YEARS

CONVICTED FOR SECOND TIME  
IN CONNECTION WITH "RED"  
NELSON'S DEATH

Will Montgomery was convicted in  
Circuit court late yesterday for the  
second time in connection with the  
death of "Red" Nelson. The defend-  
ant was given five years in the peni-  
tentiary. He was charged with second  
degree murder.

Montgomery was serving his sen-  
tence, following his first conviction,  
when the case was reversed by the  
supreme court. The state was repre-  
sented at the second trial by Solicitor  
D. C. Almon, while John R. Sample,  
of Hartselle, appeared for the defense.  
Nelson's body, partially decomposed,  
was found at the base of a bluff near  
Hartselle sometime ago.

## FIRST BREAK IN COAL STRIKE; MEN RETURN TO WORK

(International News Service)  
DANVILLE, Ill., July 28.—The  
first break in the coal strike came to-  
day when men employed in 12 Illi-  
nois mines returned to work.

### 5,000 MEN IDLE

CHICAGO, July 28.—Coincident  
with the report today from Danville,  
Ill., that the men from 12 mines in  
that vicinity had gone back to work,  
came the news that 5,000 workers are  
idle at Gary, Ind., steel mills, owing  
to the lack of fuel.

### WILSON TO REPORT

(International News Service)  
WASHINGTON, July 28.—Secre-  
tary of Labor Wilson is expected to  
make a report to the President today  
on the coal situation.

### NO SHUT-DOWN

INDIANAPOLIS, July 28.—No ef-  
fort will be made by the United Mine  
Workers to force an immediate shut-  
down of miners of the central field  
as the result of the settlement of the  
trouble at Danville, Ill., it was be-  
lieved today.

## MILLER TALKS OF CHICAGO MEETING

BLACKSMITH'S REPRESENTA-  
TIVE RETURNS AFTER NA-  
TIONAL CONFERENCE

"There has been some misapprehen-  
sion as the primary cause of my re-  
cent trip to Chicago," said John W.  
Miller, Blacksmith's representative.

"While I was admitted to the hear-  
ings on the wage award as held by  
the Railroad Department chiefs and  
attended some of those meetings, pri-  
marily, I went to Chicago, to the  
meeting of the Blacksmith and Hei-  
pers National Union where we elected  
J. W. Cline, our President for an-  
other year, and all the vice pres-  
idents and other officers. I did not  
have as hard a job as Brother Sam  
Roper, who at one sitting of the Rail-  
road chiefs had to stay in session 25  
hours with only a cup of coffee and  
a sandwich in the way of food."

### Convention in Masonic Hall

"We held our Blacksmith's meet-  
ing in one of the Masonic Halls of  
Chicago, on the 17th floor. Monday  
night we heard the annual address of  
Bro. Cline. He impressed me as a  
very able and level headed man, as  
did also the chiefs of the Brother-  
hoods of the hundreds of Railroads,  
such as Brother Roper is for the  
Louisville and Nashville. Mr. Cline  
came out strong against whiskey in  
his speech. He said to the best of  
his information the stuff only ruined  
body, mind and character and never  
put an honest dollar in any body's  
pocket. You may remember that it  
was the Blacksmith's convention of  
some time ago that put a quietus on  
the 'No beer, no work' slogan.

"We Blacksmiths, discussed nation-  
wide conditions as affecting our trade,  
and among other things politics were  
touched on. We were advised to pick  
our men, but nothing was said for the  
National Labor Party. We heard a  
good deal about government owner-  
ship of Railroads, with special refer-  
ence to the Railroads in Belgium. As  
far as I could learn the most opposi-  
tion to the wage award will come  
from the Northern part of the Coun-  
try. Up there coal costs twice as  
much, that is it takes twice as much  
to do a winter. They have no gar-  
dens whatever. They have not even  
a back lot. And food in the restaur-  
ants costs a great deal more than it  
does down here. If there was any  
radical Bolshevism agitation it must  
have been in the background, as I  
did not hear any of it. I was around  
the newspaper office where our  
monthly journal was printed, and a  
lot of lively discussions were car-  
ried on there on politics and the gen-  
eral good of the country," concluded  
Mr. Miller.

### WEATHER

Generally fair tonight and Thurs-  
day.

## ALBANY GETS NEXT MEETING OF ALABAMA AUTO DEALERS

B. L. MALONE

The next meeting of the Alabama  
Automobile Dealers Association will  
be held in Albany. Information to  
that effect was received here today by  
The Daily in an International News  
Service dispatch from Montgomery,  
where the association has been in con-  
vention several days.  
It was largely through the efforts

of B. L. Malone, local automobile  
dealer and vice president of the asso-  
ciation, that the next meeting will  
come here. Mr. Malone went to the  
state convention with the avowed pur-  
pose of obtaining the 1921 session.  
The association is composed of prac-  
tically all of the automobile dealers  
of the state and the meeting here is  
expected to be largely attended.

## MOBILE NEGROES WERE REGISTERED AS WHITES; VOTED

(International News Service)

MOBILE, July 28.—The polling list  
of the city of Mobile contains approx-  
imately 5,670 names and of this  
number 1,701 are not qualified vot-  
ers, a majority of them being negroes  
registered as white voters.

This was revealed today in a tabu-  
lation on which Edward A. Delchamps,  
enumerator, and Thomas B. Allman,  
clerk of the county board of revenue,  
are now at work. The tabulation fol-  
lowed the recent tabulation of the  
wards under the direction of Del-  
champs.

## Receiver is Sought for Motor Company

BIRMINGHAM, July 28.—Applica-  
tion was made in the court here to-  
day for the appointment of a receiver  
for the Preston Motors corporation.  
The application was filed by W. D.  
Brown, who alleges that the company  
has not the finances to continue work,  
"has never produced anything and  
never will." The court will hand  
down a decision later.

## SIR THOMAS LIPTON GOES HOME WITHOUT THE CUP

Resolute Came Up From Behind and Won the  
Fifth and Deciding Race.

(International News Service)

NEW YORK, July 28.—The crown-  
ing effort of yesterday's contest by  
which America retains the premier  
position in the yachting world was  
in keeping with the rest of the races.  
It can be summed up as a poor  
exhibition of one of the noblest and  
most skillful sports known to man.  
Had Resolute taken 15 minutes longer  
to make the 30 mile course it would  
have been declared no race. The se-  
ries of races did not prove which is  
the better all-round boat. Light wind  
interfered with the success of the  
contests.  
The fifth and deciding race was

## FLORENCE PLANS NEW BOAT LINE ON TENNESSEE RIVER

A movement to place at least two  
boats and two barges in freight ser-  
vice on the Tennessee river has been  
launched by the Florence chamber  
of commerce. The commercial body has  
announced plans for the organization  
of a half million dollar corporation, the  
shares to be sold at \$10 each, to fi-  
nance the project.

Florence plans to operate the new  
river line to down river points and  
it is said already enough business  
has been pledged to insure the fi-  
nancial success of the movement.

A committee was named by the  
commerce chamber to ascertain wheth-  
er it is possible to purchase a boat  
immediately and to obtain estimates  
on the cost of building a new boat  
and two barges.

### WILSON PLANS OUTING

(International News Service)  
WASHINGTON, July 28.—Presi-  
dent Wilson is considering a week-  
end voyage on the Mayflower at the  
end of this week, it was learned at  
the white house today.

## RETAIL MERCHANTS OF ALBANY FINISH THE ORGANIZATION OF LOCAL BRANCH

W.W. Rahm is Permanent Chair-  
man, and E. M. Odom  
Vice Chairman.

BOARD OF GOVERNORS  
SELECTED AT MEETING

J. F. Dillehay is named Secre-  
tary and Treasurer of the  
Association.

Organization of the Albany branch  
of the Retail Merchant's Association  
was perfected last night at an enthu-  
siastic meeting of local merchants at  
the Albany chamber of commerce.  
Selection of W. W. Rahm as perman-  
ent chairman was ratified by the  
meeting. Following report of the  
nominating committee and enthu-  
siastic addresses by a number of mer-  
chants, the following additional of-  
ficers were chosen: E. M. Odom, vice  
chairman; J. F. Dillehay, secretary  
and treasurer.

The board of governors, composed  
of a member from each line of busi-  
ness, is as follows:

E. M. Odom, shoes; Webb Speake,  
clothing; A. A. Hardage, dry goods;  
J. L. Procter, furniture; W. E. Sively,  
hardware; Isaac Eubanks, butcher; E.  
L. Thomas, groceries; J. A. Buttrely,  
ladies ready-to-wear; B. L. Malone,  
automobile dealers; J. W. Ezzell, con-  
fections; Harvey Dillehay, drugs; E.  
C. Payne, lumber; E. W. Strother,  
bakeries; H. M. Priest, undertakers;  
Joe Wilder, haberdasheries; C. W.  
Abel, plumbers; F. F. Tidwell, Farm-  
ers supply houses; Mrs. F. S. Graves,  
milliners; J. A. Miller, music dealers.

## AUSTINVILLE HAS A LABOR TICKET

N. Y. WILDMAN IS CANDIDATE  
FOR MAYOR AND ALDERMAN-  
IC TICKET NOMINATED.

At an enthusiastic mass meeting  
held at Austinville Monday night,  
after a number of speeches from la-  
boring people, it was decided to put  
a full "Labor" ticket in the race for  
the municipal offices of Austinville.  
Louisville and Nashville employees  
compose the entire ticket according  
to T. A. Johnson of Austinville. The  
ticket nominated is as follows: For  
Mayor: N. Y. Wildman; For Alder-  
men: T. A. Sparkman, C. A. Spark-  
man, Chas. Erwood, W. F. Lehman  
and A. L. Barnes. Mr. Johnson stated  
that the other Austinville citizens  
were reported to be planning to put  
out a ticket next Monday night to  
oppose the "Labor" ticket.

## HIGH COST LIVING IS COMING DOWN

MATERIAL REDUCTIONS AL-  
READY MADE, ESPECIALLY  
ON CLOTHING

(International News Service)  
WASHINGTON, July 28.—The high  
cost of living has "very materially"  
been reduced in some lines, Howard L.  
Figge, special assistant to the attor-  
ney general, said today in a review of  
the activities of his office.

Price reduction has been most no-  
ticeable in wearing apparel, he said.  
The campaign in other direc-  
tions, he admitted, has not been  
entirely successful but agents of the  
department are concentrating their  
efforts on these lines.

The failure to get a decrease in  
food prices has been due largely to  
the inability of the producer to get  
his stuff on the market because of  
railroad tie-ups, Mr. Figge said. He  
gave figures showing that his depart-  
ment had spent \$96,000; fines obtain-  
ed from convicted profiteers total  
\$258,000. There have been 1,088  
prosecutions under the Lever act.

**Albany-Decatur Daily**

Published Every Afternoon Except Sunday in Albany, Ala., by the **TENNESSEE VALLEY PRINTING COMPANY, Inc.**

Entered as second-class matter February 26, 1912 at the postoffice at Albany, Ala., July 1, 1917, under Act of March 8, 1879.

**THE GAMES LOSER**

Most anybody can smile when victory comes their way, but there are very few who can assume a cherubic expression and speak fair words in defeat. An exception to the general rule is Sir Thomas Lipton, the genial Irish baron, whose attempts to win the America's cup have uniformly ended in failure. Four times has he tried and each time the verdict has been the same. This year, with two wins accredited to the challenger and three more races to go, the Yankee yacht again blasted English hopes by annexing three in a row. This was indeed a cruel blow to high aspiration and well justified hope. But in the face of it all Sir Thomas declares that "the best boat won" and will go home to perfect his plans for another try at a confound that has been in the United States long enough to have attained citizenship. Those who may think that it is easy to be cheerful under conditions like these should reflect on their own behavior when their pet baseball team is losing.

**FLORENCE AWAKE TO RIVER POSSIBILITIES**

The Daily is today, in another column, carrying a news story of action taken at Florence in regard to the formation of a corporation that will place steamers and barges on the Tennessee river. This action by Florence is entirely in the interest of Florence, of course. Florence is enterprising and selfish. It is only referred to here in order that the citizens of the Twin Cities may be aroused to the possibilities of river trade. "Go, thou, and do likewise" is a good motto for home consumption. To open the Tennessee to navigation will not mean a great deal unless packet lines are operated. Water is good to drink and to bathe in. It will also float boats.

The Anniston Star very cleverly makes the point that the league of nations proposed by Senator Harding, republican presidential nominee, would be a "bush league". It contends that as all but four of the nations of the earth are members of the Wilson league, Mr. Harding would be forced to form a band composed of "bolshevistic Russia, unspeakable Turkey, revolutionary Mexico" and the United States. Fine campaign issue that this Wilson-hater has sprung!

The human tendency to indulge in hard expletives makes the bad gas question a moral issue.

The Resolute seems to have staked the Shamrock IV to a two run lead

merely to show her what an American boat can do in an emergency.

Calvin Coolidge's plea to "re-possess the American people of their government" might mean more if it wasn't an open invitation to replace the authority of Woodrow Wilson, the idealist, with that of Boies Penrose, the hog.

The mere fact that "Jimmy" Cox is a far more successful newspaper man than Warren Harding rather justifies the prediction that he would make a more efficient president.

With Hoke Smith and Tom Watson competing for senatorial honors in Georgia there should be no objection to the parole of Eugene V. Debs, provided he would confine his activities to the Cracker State.

Mr. Eryan didn't sing "How Dry I Am", when the prohibition party tendered him its presidential nomination.

**GAS RATE INCREASES**  
(Gadsden Journal)

The city of Gadsden, through its officials will fight the effort of the Tri-City Gas company to increase its rates from the present scale, \$1.65 with ten per cent discount if paid by the tenth of each month, to \$2.25 with a 25 cent discount if paid by the tenth.

In this connection, it is interesting to study a report on net rates for manufactured gas, taken from the monthly labor review for June, 1920, of the bureau of labor statistics, United States department of labor. Net prices on manufactured gas in April of each year from 1913 to the present year have been quoted for forty-three cities.

The highest rate of any city in this list is \$1.60 at Norfolk, Virginia. The lowest is 75 cents, for Baltimore and Milwaukee. The rate in the former city has been reduced during the period in question, while that of Milwaukee has remained stationary. Birmingham's rate was \$1.00 in 1913, and was reduced the following year to 95 cents, which is the present rate.

It would not be fair, probably, to compare rates charged in a city of Gadsden's size for gas service with those charged in the larger cities. But we think it is fair to accept the statistics on increases in these cities as a standard for Gadsden. Along this line, the bulletin says:

"As may be seen in the table, the price of manufactured gas has changed but little since 1913, being only 15 per cent higher in April, 1920, than in April, 1913, and until 1918 being less than in 1913."

Gadsden's net rate in 1913 was \$1.12 1-2. In February, 1919, it was advanced to \$1.43 1-2, an increase of 32 per cent. Now an increase is sought to make the net rate \$2.00 or 87 1-2 cents above that of 1913, an increase since that year of approximately 80 per cent.

**JUST IN PASSING****WANT ADS SCORE**

The Daily want ads scored again Monday. J. L. Prosser inserted a want ad in the The Daily Monday afternoon, advertising a Jersey cow for sale. A short time after the paper was out the cow was sold.

**EQUIPMENT SHORT**

"A quarter of a million Americans are waiting to get their number," said a telephone official, "but not waiting

on central but on equipment.

"The number of unfilled orders for telephones is a direct reflection of the growth of business in general and the telephone business in particular. A large number of waiting orders means a phenomenal growth of telephones installed and telephones ordered. For the Bell companies the country over there is a total of about 150,000 contracts awaiting installation. In addition to this there are considerable number of requests made for telephones which have been deferred for which no contracts have been made. There never has been and probably will never be a day that there are no unfilled orders and statistics show the number is normally 60,000 for the Bell system.

"On the basis of the results of an inquiry by the United Press, whereby it was learned that in twelve metropolitan districts in the country selected at random there are at present approximately 121,000 unfilled orders for telephones by individual would-be subscribers, it is estimated about 139,000 other applications for equipment in various parts of the country that are yet to be filled. At present in the whole country there are about 12,000,000 telephones now in use."

**STRONG FOR ROADS**

Messrs. Atkinson, McCutcheon and other prominent citizens of the Lacy's Spring neighborhood were in the city yesterday and expressed themselves as being delighted at the prospects for good roads in their section. The government trunk line highway from Decatur via Somerville, Valhermosa Springs and Lacy's Spring, across the river at Whitesburg and into Huntsville opens new visions to the people of that splendid agricultural section. It means lots for them and Huntsville as well. The next link in the big program that is to be put over is a wagon bridge across the Tennessee river so as to make the coming and going easy and pleasant. Huntsville stands ready to help in this great undertaking.—Huntsville Daily Times.

**Missionary Heard Here Next Sunday**

Rev. J. P. Williams, a returned missionary and a brother of T. E. Williams of the Morgan County National Bank, will occupy the pulpit of the Central Baptist church next Sunday morning and evening, it was announced today by Dr. W. P. Wilks, pastor of the church. Dr. Williams has been in the mission field for the past seven years, having been stationed in China. He is now home on furlough.

**POLITICAL ANNOUNCEMENTS****FOR MAYOR**

The Daily is authorized to announce the candidacy of John E. McEachin for Mayor of Decatur in the general election of September, 1920. Your vote and influence will be appreciated.

(Paid political advertising authorized by D. D. Burleson.)

**MAYOR OF DECATUR**

I hereby announce my candidacy for the office of Mayor of Decatur, Ala., at the election on Sept. 20 and will appreciate your vote and influence.

T. M. DIX,  
(Paid political advertising authorized by T. M. Dix.)

**Reese Lamon, Age Three Years, Hurt**

(Continued from Page 1.)

Robinson, when arrested offered no resistance to the officers. He was placed in an automobile immediately and hurried to jail here. No effort was made to take the prisoner from the custody of the officers.

**To Issue Warrants For Mine Operators**

KNOXVILLE, Tenn., July 28.—From 15 to 21 warrants against leading mine operators of Kentucky and Tennessee charging profiteering under the Laver act will be issued in the next few days, it was learned today.

**"Rush" Work Seldom Good.**

It is all right to be busy, provided it is the right kind of busy. Some people are in a constant state of hurry which borders on confusion, because they never begin in time, never make the right sort of preparation, and never stop long enough to calm their minds in order to get their bearings.

Worn Down, Out of Heart

Georgia Lady, Worn-out and Tired, Tells How She Was Helped by Ziron Iron Tonic.

THE personal experience of Mrs. Nannie Phillips, of Powder Springs, Ga., is printed below in her own words:

"I was in a worn-out condition. My stomach was out of order. I didn't sleep well. I was tired all the time. I couldn't half eat, and didn't rest well at night.

"I would get out of heart and blue. I would feel like I was going to be down in bed. Yet I kept dragging around.

"We heard of Ziron, and from what I read, I was sure it wouldn't hurt me, if it didn't help me. But after taking it, I found it really helped me, and I sent back for more. I ate better, felt much stronger. I am sure Ziron is a splendid tonic."

Many people, who are worn down and disheartened, due to stomach disorders and nervous ills, find relief by toning up their blood with Ziron Iron Tonic. Tell your druggist you want to try Ziron on our money-back guarantee.

# Our Hats Are Off

To the man that will offer you a better Suit of Palm Beach, of Mohair, or any other fabric we have them in, than we offer for—

**\$10.00 to \$13.95**

We'll make money if you buy. We'll save money if you let them alone. It's up to you. Pocket the saving and derive the comforts and benefits of a real bargain.

We need the room. We are not going to tell the good P. B. News any more this season. Not enough left to justify the expense of an ad. Buy them this week then—

**AUGUST SEPTEMBER**

AUTOMOBILE WEDDING

A novel wedding took place yesterday afternoon at 5 o'clock, when Mr. Amos W. Thompson and Miss Dora May Smith, both of Decatur, were married from their automobile by Rev. R. F. Stuckey in front of the latter's residence on Tower avenue.

PICNIC AT GARTH SPRINGS

Yesterday Mrs. Fred W. Smith assisted by her mother, Mrs. Seamons, and Mrs. Worley, entertained a party of boys and girls at Garth Springs with an all day picnic. Games and took were the features of the day.

THE GUEST LIST INCLUDED Katherine Smith, Christine Worley, Louise Hodges, Anna Margaret Arnold, Louise Almon, Ami Lee Speake, Louise Britton, Maxie Speake, Roberta Winton, Jurena Eubanks, Mildred Moebs, Mildred Bell, Carolyn and Little Marjorie Worley, and Bill Lindsey, James Edward Morrow, Howard Graham, Thomas Harvey, James Mitchell, Irvy Holt, Edward Singleton, James Mosley, Charles Harvey, Marion Russell and Hansford Nelson.

Mr. and Mrs. J. H. Calvin, Miss Maria Calvin, Jack and Joe, Jr. left in their automobile this morning for Russellville, Ala. While away Mr. Calvin will visit the plants of the Calvin Company at Russellville, Cullman and Hartselle.

Mrs. James A. Nortney is the guest of the family of T. J. Cox.

Mr. and Mrs. Harry Carter, after a pleasant visit to his parents, Mr. and Mrs. Ed Carter, have gone to Jackson, Tenn., to visit relatives of Mrs. Carter. Later they will return to Montgomery where Mr. Carter is stationed as secretary of the Alabama Chapter of the Rainbow Division Veteran's association.

Mrs. Walter Ezell has returned from a ten days' vacation, spent on the Gulf Coast, and Camp Walton, Fla., with a party of seven from Montgomery.

Mrs. W. H. Duncan and children of 307 W. Moulton street, are visiting Mrs. C. M. Duncan's daughter, Mrs. C. M. Best, of Cornith, Miss.

Mrs. B. E. Dupont and children of Evansville, Ind., are visiting Mr. and Mrs. C. V. Dupont.

Miss Truman Stuckey returned home Saturday from Marion, Ala., where she has been attending Judson College taking a special course. Miss Stuckey will shortly resume her music class for the fall and winter.

Mr. and Mrs. J. D. McNabb, formerly of the Twin Cities, are now residing at Rome, Ga. The many friends of Mr. McNabb will be pleased to learn that his health is considerably improved.

## Republicans Go After Senate Seats

CHICAGO, July 28.—Republicans will concentrate much of their energies from now until November in campaigning for six seats in the United States Senate now held by democrats, it was announced at the party's headquarters here today.

## Bumper Crops Are Now a Certainty

(International News Service)

WASHINGTON, July 28.—Shortage of farm labor is no longer a menace to a bumper crop, according to a report made today by the department of agriculture. The farm labor situation has been relieved materially and there will be adequate labor for harvesting the crop.

## Valona Evacuated By Italian Forces

(International News Service)

PARIS, July 28.—The Italians are evacuating Valona, an important Adriatic port on the Albanian coast, said a Rome dispatch today.

## Armour Beef House At Chicago Burns

(International News Service)

CHICAGO, July 28.—More than 20 firemen were overcome by heat and smoke when fire partially destroyed the beef house of Armour & Co., to the extent of \$100,000 damage.

## Year's Growth of a Pine Tree.

Mr. Hill, lockmaster at Buckhorn, Ont., experimented with a pine tree to determine improved growth which may be secured by proper care. Fifteen years ago he pruned all the lower branches off a four-inch white pine sapling, removing other saplings from its vicinity, dug up the earth around it and applied manure to its base. It is now nineteen inches in diameter at its base and has a long, clean pole. Thus, during the fifteen years the growth in diameter has averaged one inch annually.—From the Conservation.

## PERSONAL

Dr. F. S. McGlathery and daughter, Mrs. Morris of Birmingham, are visiting relatives in Albany-Decatur. Dr. McGlathery leaves Thursday for Washington, D. C., John Hopkins, Boston, New York and other eastern points.

## Rheumatism Comes From Tiny Pain Demons

This is why S. S. S., the greatest known blood purifier is so successful in the treatment of Rheumatism. It is a powerful cleanser of the blood, and will remove the disease germs that cause your Rheumatism, affording relief that is genuine.

S. S. S. is sold by all druggists. Free literature and medical advice can be had by writing to Chief Medical Adviser, Swift Laboratory, Atlanta, Ga.

Medical scientists differ as to the causes of every form of rheumatism, but agree that when caused by a tiny disease germ, the only effective method of treatment, is to attack the disease at its source, and cleanse the blood of its cause.

## Highly Productive and Splendidly Located Land For Sale

We are offering for sale on the very easiest terms, something on which you can employ your spare time to advantage.

The subdivision of the 900 acre tract between West Albany and Austinville and between the Louisville and Nashville Shop Yards and the Danville Pike, into tracts of one acre to five acres and up, has placed within your reach the very thing you have hankered after for years.

Do you realize this, and what a Splendid Opportunity you are being Offered to become independent?

If you think these opportunities are not being grasped by the thoughtful ones, guess again.

The proceeds from a 5 acre tract of this land will feed your family and you will have your year's salary to the good.

This land is within easy distance of the Louisville and Nashville Railroad Shops, and has a wonderful future to it.

We do not expect to sell all this tract in a few days, however, the early shopper always has the advantage.

Make an appointment to be shown over this land by calling Albany 50 or 479, or by dropping a card to John Patterson, Secretary, Albany, Alabama.

# It Is Iron In The Blood That Makes Iron Muscles Like These--

Physician Explains a Secret of the Great Power and Endurance of Athletes--Tells How Organic Iron--Nuxated Iron Helps Build Rich, Red Blood That Gives Physical Strength and Energy

To touch the arm of a strong, sturdy man--to feel the steel-like firmness of those muscular sinews--to think of the tremendous force and power that must lie behind such strength--these are thrills that come to the thin-blooded men and women whose own bodies are weak and physically unfit.

It takes men of red-blooded force and power to hit the sledge-hammer blows that count--and whether you are a pile-driver or a bank president you cannot expect to win out against odds forever unless you are a man of iron--constantly able to strike--and strike hard.

There are countless numbers of men today who at 40 are broken in health and steadily going downward to physical and mental decay," says Dr. John J. Van Horne, formerly Medical Inspector and Clinical Physician on the Board of Health of New York City. "Yet there are thousands of such men who undergo a most remarkable transformation the moment they get plenty of the right kind of iron into their blood to give increased energy and endurance. To help build stronger, healthier men and women, better able physically to meet the problems of everyday life, I believe that physicians should, at every opportunity prescribe organic iron--Nuxated Iron--for in my experience it is one of the best tonic and red blood builders known to medical science."

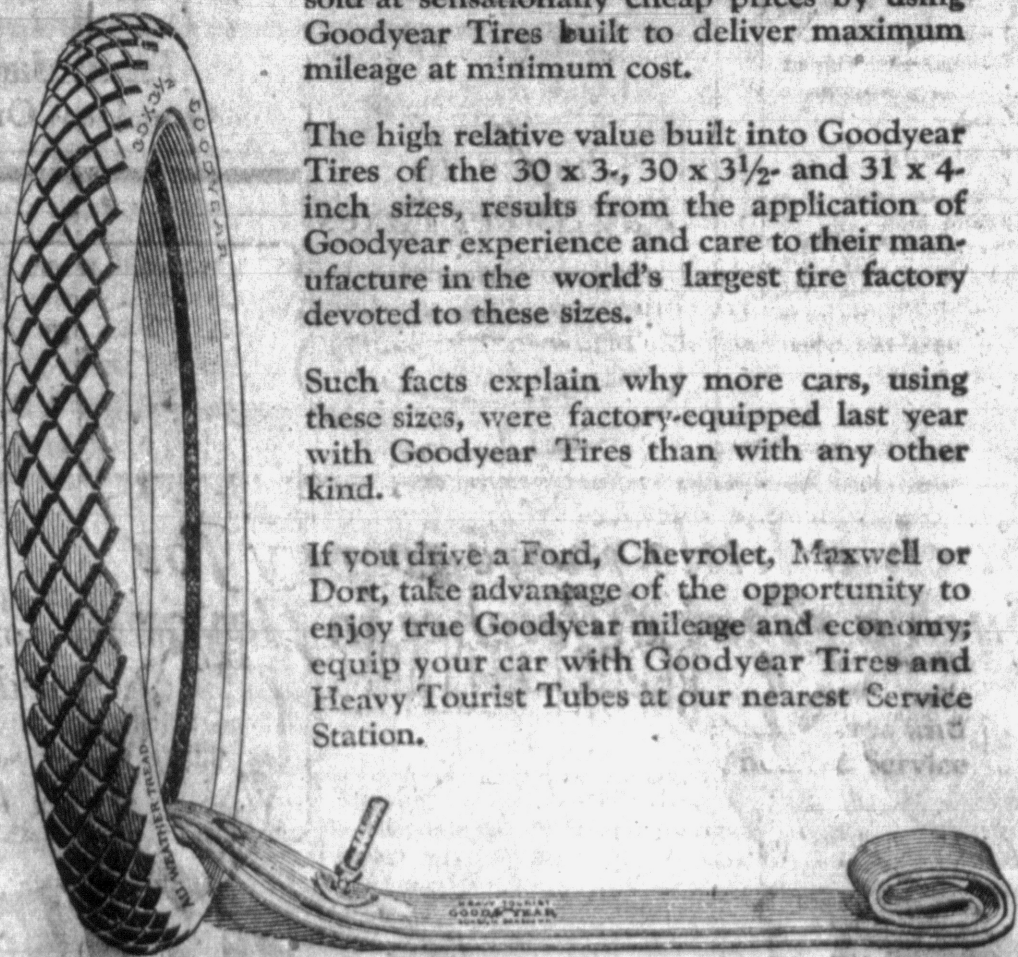

If you are not strong or well you owe it to yourself to make the following test: See how long you can work or how far you can walk without becoming tired. Next take two five-grain tablets of Nuxated Iron three times per day, after meals, for two weeks. Then test your strength again and see for yourself how much you have gained. Many an athlete or prize fighter has won the day simply because he knew the secret of great strength and endurance, which comes from having plenty of iron in his blood, while

many another has gone down to inglorious defeat simply for lack of iron.

## Save Money--Put Goodyear Tires on Your Small Car

Avoid disappointment with tires made to be sold at sensationally cheap prices by using Goodyear Tires built to deliver maximum mileage at minimum cost.

The high relative value built into Goodyear Tires of the 30 x 3, 30 x 3 1/2 and 31 x 4-inch sizes, results from the application of Goodyear experience and care to their manufacture in the world's largest tire factory devoted to these sizes.

Such facts explain why more cars, using these sizes, were factory-equipped last year with Goodyear Tires than with any other kind.

If you drive a Ford, Chevrolet, Maxwell or Dort, take advantage of the opportunity to enjoy true Goodyear mileage and economy; equip your car with Goodyear Tires and Heavy Tourist Tubes at our nearest Service Station.

30 x 3 1/2 Goodyear Double-Cure Fabric, All-Weather Tread, \$23.50

30 x 3 1/2 Goodyear Single-Cure Fabric, Anti-Skid Tread, \$21.50

Goodyear Heavy Tourist Tubes cost no more than the price you are asked to pay for tubes of less merit--why risk costly casings when such sure protection is available? 30x3 1/2 size \$4.50 in waterproof bag.....

INSTANT SERVICE

## VACCINATION IS AN EXCELLENT FORM OF HEALTH INSURANCE

By Dr. B. F. AUSTIN

Should any man see a mad dog coming down the street, and in the direction of children, he would put forth every ounce of energy in his body to prevent his getting at these children. He would even risk his own life in order that he might save the little ones. Physicians and Health Authorities now see the danger of smallpox and typhoid fever, and they know a way of preventing these dread diseases getting hold on people, and the Morgan County Health Department has a supply of this preventative, which is administered free of charge to all who ask for it.

We do not understand the general condition affecting the chances for typhoid germs within the human body, to live, multiply, and do damage. We know of no diet that will increase our resistance to this disease. Persons, after having typhoid fever, are with equal exposure to the infection, less likely to develop the disease, than are persons who have not had typhoid fever. Their resistance to typhoid germs is increased.

In recent years the specific method for increasing individual resistance to typhoid infection has been employed. This method consists of inoculation of persons with killing typhoid germs. Three injections, about ten days apart are given under the skin. The reaction following this injection is usually accompanied with slight discomfort. It is free from serious danger.

From the reaction of the body against this dead-germ matter protective substances are produced in the body, thereby increasing resistance to typhoid infection, just as is produced in a person who has had the disease. The average duration of this protection has not yet been determined, but it is supposed to be at least two years. The protection is not always absolute. However, experience has proven that persons who have been vaccinated are less likely to have the disease than those who have not, and

if they do have it, the course is very mild. The disease has been almost completely eradicated from the army and navy of the United States because these men are protected by vaccination as well as other measures. Do you believe for an instant that the army and navy would vaccinate their men if it did not protect them, and was not absolutely safe. They learned their lessons by sad experience.

This vaccine will protect the civilians just the same as men in uniform, and the Health Department is here to prevent disease, so we offer to everyone in Morgan County, the same protection against typhoid fever as is given our men in the army and navy.

Get your health insurance against typhoid fever. You owe it to yourself, your family, and young country, to get vaccinated as soon as possible.

The procession of the equinoxes was discovered by Hipparchus, 150 B. C.

The courts in India administer Indian, British and Mohammedan law.

## LIFE OF KRASSIN, SOVIET ENVOY, READS LIKE NOVEL

Was Long Associated With Bolshevik Organization; Has Interesting Career; Was Exile in Siberia.

(International News Service.) LONDON, July 28--Leonid Borisovich Krassin, member of the Central Soviet Committee, engineer by profession, considered to be one of the most responsible authorities from Russia as she is today and who, it is believed, may help bring the turbulent nation out of her present difficulties, has somewhat of a career. Krassin recently was in London for the purpose of opening trade negotiations with the British Government. Krassin is a Siberian by birth. Born in 1870, he entered for scientific course in the Technological Institute at Petrograd, and was expelled after three years for taking part in a students' uprising.

In 1894 he was exiled to Siberia. While at Irkutsk he worked on the new Siberian Railway, and in 1897 for his good work was allowed to complete his duties at Khar'kov. He was again expelled in 1898, and went to Zaku, where he superintended the erection of the central electrical station, and acted as sub-manager of the Electric Power Company.

During the whole period he was active in the organization of illegal printing offices for the issue of "Iskra," which became later the printing office of the Central Committee of the Russian Social Democratic Workmen's Party. They survived the revolution.

In 1901 Krassin joined the Central Committee of the Russian Social Democratic Workmen's Party. In 1905 he was outlawed and escaped to Geneva. He afterward returned and resumed his civil position in the capacity of manager of the Petrograd cable system, but all the time assisting in the organization--financial and technical--of the Bolshevik Party.

His revolutionary activity led to his leaving Russia again and settling in Berlin, working first as an engineer in the Siemens-Schuckhuth establishments. Later he went to that firm's Moscow branch. In January, 1914, he moved to Petrograd and was appointed managing director of the Siemens plant and interests there.

His connection with the Soviet Republic dates from 1917, when he went to Brest-Litovsk to treat with the Germans at the instance of Lenin and Trotsky. On returning to Moscow he was elected president of the Supreme Council of National Economics and chairman of the equipment committee of the Red Army. He rose quickly under the Bolshevik regime, and in the last March was made commissary of the people for ways and communications.

He is a well-set-up man, with black hair and a full beard, a dark com-

plexion and a very engaging manner. He is supremely competent and an efficient administrator. Only recently he has been in Stockholm. He knows the Russian position as no one west of the Russian frontier knows it today. The friends and confidants of Lenin and Trotsky, he knows their minds, aims and objects. From Archangel to the Crimea and the German frontier to the Urals, M. Krassin has a bird's-eye view of Russia as she is today.

## AMERICAN LEGION FORMING A HABIT

KIWANIS CLUB GOES DOWN IN DEFEAT FOR THE FOURTH TIME

The American Legion is forming a habit of winning games from the Kiwanis club. The Legionnaires defeated the Kiwanis Klan yesterday at the ball park for the fourth time, by a score of 9 to 5. The game was decidedly the best yet played between the clubs, the score being tied in several innings. Shackleford was on the firing line for the Kiwanis, while Stuts was the Legionnaires' pitching ace. Both hurled well, errors accounting for most of the markers.

Score by innings:  
Legion.....0 2 1 4 0 0 20 0-9  
Kiwanis.....0 1 2 0 1 0 0 10-5  
Batteries: Stuts and Pitts and Neville; Shackleford, Rankin and Morrow.

The myth of the deluge is almost universal among all ancient peoples. The hand grenade was the earliest form of the modern explosive shell.

## SUNDAY NOT SABBATH DECLARED EVANGELIST OLIVER L. DENSLOW

"Sunday is not the Sabbath, it is the seventh day. This is the day observed by Christ as a Sabbath and never was, it never can, it never will be," Declared Evangelist Oliver L. Denslow at the Big Gospel Tent last night. Sunday night he presented the subject of the True Bible Sabbath to a tent more than full of people, a large number of whom were back last night to hear the second lecture on the subject of the Sabbath. Tonight his subject is, "Who changed the Sabbath? Why are men now observing two days?"

Mr. Denslow's subject last night was, "The Sabbath in the New Testament." Continuing he said, "The New Testament plainly teaches that the Lord has a day, for John said: 'I was in the spirit on the Lord's day.' But which day in the Lord's day? John does not say so we must go to other parts of the New Testament to find out. Mark 2:27-28 tells us that Christ is Lord of the Sabbath day. Being Lord of it then it must be the Lord's day. But which day is the Sabbath? Let the New Testament tell us. Luke 23:54, 24:1 show that the Sabbath day is the day just before the first day of the week."

Calling attention to apostolic example the speaker showed that there was a record of 84 religious services held on the Sabbath day in the book of Acts alone to one held on the first day of the week and that that one was a night meeting and fell on what we now call Saturday night. In closing he read every text in the New Testament mentioning the first day of the week and showed that in none of them was there any command for observing the day nor was it even hinted that the day should ever be honored in any way whatsoever. "The Bible," he said, "nowhere contains a command for the observance of any other day than the one mentioned in the great Sabbath commandment, namely the Seventh day commonly called Saturday."

Tonight Mr. Denslow will discuss the change of the Sabbath and will show from history just how it came about. (Advertisement)

YA OUGHTA SEE  
THE SURPRISE WE GOT  
FOR MY POP WHEN  
HE COMES HOME  
FROM FRANCE

WE GOT TWINS  
RUNNIN' ROUND  
THE HOUSE.

## When the train came in back in 1910

TEN years ago you might have seen one or two automobiles waiting outside the station, when the weather was pleasant.

Today the square is crowded with them. And most of the cars you generally see there are moderate-price cars.

Anybody who tells you that owners of moderate-price cars are not interested in the quality of their tires has never met very many of them.

We come in contact with the small car owner every day and we have found that he is just as much interested as the big car owner.

There is one tire, at least, that makes no distinction between small cars and large cars so far as quality is concerned—the U. S. Tire.

Every U. S. Tire is just like every other in quality—the best its builders know how to build.

Whatever the size of your car, the service you get out of U. S. Tires is the same. It isn't the car, but the man who owns the car, that sets the standard to which U. S. tires are made.

We feel the same way about it. That's why we represent U. S. Tires in this community.

## HITS AND MISSES

By BARRETT SHELTON

### SOMEWHAT DUPLICATED

The Texas League has the honor of having the only bird to have the family name of the world's greatest pill buster according to the Sporting News. This gent cavorts in a lively fashion in the outfield but he doesn't hang the crepe on the hurler when he steps to the platter as does his namesake. This guy is named Ruti and to an outsider to the baseball world it is likely that he would get the idea in his dome that the Texas League has combined in an effort to get some of the cash by piling 'em in to see the Babe.

The Senators have a splendid chance at the fluttering gaffoon if Tri Speaker and Miller Huggins decide to go into the insurance business.

### "DUPLI" DITTO

Besides Ruth having an understudy, there are two Alexanders, Selbids, Fletchers, Burns, Cobbs and McInnis. But when you get to the list of the Sullivans, it gives you the idea that the baseball microbe is a firm believer in the theory of heredity. There are four of this enterprising family.

Cleveland will positively win the flag this year unless passed by the Yanks.

Why is it that the fans of the villages never get riled at the umpire sufficiently to storm him with potshots? The Villagers always like the ways of the city chap with this exception.

### BLOOIE BLOOIE

George Tyler took the advice of the dentist lately and had all his teeth removed. The dentist says that it will greatly benefit the big left hander. Maybe so—But you don't pipe Walter Johnston, Artie Nehnor Grover Alexander chasing the Doc down to get a set of false crockery installed.

All the Memphis Chicks and the Nashville Vols need to cinch the year's work is a full crew of nine new ones.

According to the Baseball Magazine the loneliest feeling in the world is that of an Umpire when the stand are quiet. The Magazine states that this certain species of humanity objects to passing from the public eye worse than any other yet known to science. The arbiter is mighty blue when the teams and the spectators pull the clam act and cut the beefing. He then feels that he is being completely ignored by the world.

### BATTER'S ALIBIS

"That bum ump was callin' 'em all strikes so I had ter take a swipe at one of 'em to keep from bein' called out."

"How can yuh expect a guy to come in from th' sunfield and see how tuh hit anything?"

"Them signs on the back wall got my eyes all blurred."

"He ain't got'er thing but a straight one but I can't hit 'em."

"Aw that lucky stiff made a helluva catch. I had a hit by rights."

"I can't hit 'em 'corrding to orders I hav tuh hit 'em where I want to.—Baseball Magazine.

### THE END OF AN IMPEPERFECT DAY

Ruth gets four walks out of four trips up.

Allen hit one in the ninth after Mr. Morrison had a clean slate for the other eight.

### The Chicks cop one.

Cobb brings his total up to .340 in one week and Speaker, Ruth and Jack on loaf awhile.

Game called at the end of the fourth with the White Sox leading the Indians 4-0.

The wind stops blowing with the resolute a mile and a half in from with the Shamrock calm.

## CHANGES HIS VIEWS ON BOLSHEVISM

GERMAN CHANCELLOR NOW DECLARES THAT IT IS "A DANGEROUS POISON"

(International News Service)  
LONDON, July 23.—Dr. Von Simons, German foreign secretary, has been compelled to make a "humiliating apology" and repudiate his praise of bolshevism uttered in his speech at the opening of the national assembly on Monday, said a dispatch from Berlin.

Dr. Von Simons was compelled to change his attitude by political circumstances. He made public his revised views, saying that he considered bolshevism "a dangerous poison."

Note: A Berlin dispatch on Tuesday quoted Von Simon as praising the constructive qualities of Bolshevism.

## Last Chance to Pay Street Taxes

The coming pay day will mark the end of the period of grace extended those who owe street taxes in Albany. It was announced today by City Clerk Hartung. Penalties will be imposed in all cases where the tax is not paid promptly, it was stated. The tax is \$2.50 per year if paid at once.

## ENGLAND GETS CUSTARD FLIVVERS

SLAP-STICK COMEDY MOTOR BE-  
COMES REALITY ABROAD;  
THEY'RE CUTE, BUT  
"GAS" SAVING.

By EARLE C. REEVES,  
International News Service Staff  
Correspondent.

LONDON, July 28.—Behold the "custard pie" automobile. Their day has arrived, and England is overrun with them.

No other term describes them, and they're "just the darlings of the day." You'll remember. Back in the dim almost prehistoric days of the movie when the Bijou Theatre interspersed every poor vaudeville with two or three "moving pictures" of slap-stick type, we all met the "custard pie" automobile.

It was about seven hands high. But it could go. Oh, how it could go, when the comedian clambered in, dropped his chin on his peaked knee and started making the Bijou world glad with the tricks he could play in his vest pocket motor car.

There could never be such a motor car we thought then. It was a bit

of stage "property." One had been built, to be sure, for this particular comedian—but there ended the matter.

It didn't end there. For in England the all important ingredient hereabouts known as "petrol," and in the states known as "gas" purveys at just under a dollar a gallon. And in England, class for class, motor cars cost at the original buying at least double the cost in America.

So the "custard pie" automobile of the early comic movie reel has glided off the screen onto the roads of Great Britain. They are still about even hands high and chins have to be propped more or less upon knees, and to the outsider they are still comic. But to tens of thousands of Britishers these "bugs" of the arrow highways are things taken in deadly earnest.

They come off the shelf at two to three hundred pounds sterling and scarcely weigh more. That's \$300 to \$200, and very cheap for any kind of a horseless carriage in these islands. But more important still, they'll do thirty miles or so on a gallon of gas.

Some of them have three wheels only. These are quite wide enough for two people to sit alongside almost in comfort. Others have four wheels, and of these some are only "one man" width, with a pocket seat for "Pier" wife behind, and some are even on "one man" size, with no back seat at all.

Besides these motors that should be the poor man's friend, but actually cost a middle class price, the lordly liver of our American acquaintance is a giant touring car, and the real touring car now affected by the bridegroom and plumber's assistant in the United States would rank as a sight-seeing charabanc.

The start toward lightness and far-reaching gallons of gas was made during the war. The end of the war saw a scramble in industrial circles to build "cheap" motor cars. Mostly the engineers tried for a car that would be just a size smaller and perhaps with a little heavier body than the great American flivver. They found that such a car, without self starter or lighting system would have to be marked at 400 pounds.

Meanwhile, the "buckboard" school of motor builders were forging ahead the tiny mechanism that was little more than a motorcycle engine attached to a set of wheels and topped by any kind of a seat at all could be built quickly and at about half the cost. Some of these pioneers carried their engines chugging away in plain sight. There was no hood, and the car was visible beneath a common buckboard seat.

A little camouflage has been thrown around the mechanism now, and some of the seven hands high cars have long racing lines today. It even increases the comedy of their appearance,

for they may dart around a towering horse truck with the look of a De Palma in full blast, and yet be moving a sedate eight miles an hour. The auto craze has been later by years in England than in America. Construction prices were too high to permit motor owning becoming widely popular.

Cathedral Resembles Grass Hill. Of the world's cathedrals, probably the most curious is that which crowns a hill in Uganda. In appearance it resembles nothing so much as a mountain of grass, although on closer inspection one is able to see that mud and wood have been extensively employed. The structure can accommodate 4,000 people.

## Make Your Own Porch as Comfort- able as a Summer Cottage

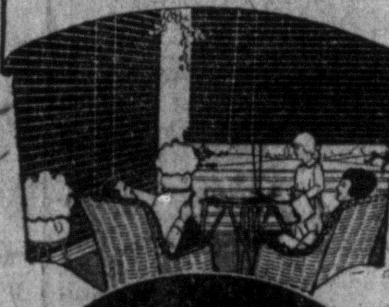

For living, dining or sleeping your own porch will rival the comforts of a summer cottage if it is completely equipped with Aerolux Ventilating Porch Shades.

Shades—fresh air in abundance—cooling breezes, protection against sun and rain—seclusion from inquisitive eyes—these are appreciated by the out door living enthusiast and are assured to him whose porch is Aerolux equipped.

The ventilating feature makes the shades doubly desirable, for they permit a perfect circulation of air at all times. They are constructed of thin, tough, linwood splints, woven together with a durable seine twine and stained with weatherproofing oil stains. Porcelain rings are used in place of rusting, sticking pulleys. Adjustable Guy Cords prevent flapping in the wind.

## Why We Use Refinite Soft Water Reason No. 1

### "Immaculate Results"

There is a pleasant thrill awaiting you on opening your package from our laundry.

Daintiness and delicacy have been added to your exquisite garments. Their original lustre is retained; the whiteness is immaculate and as refreshed as if the cloth had been woven anew. The colored fabrics likewise are bright and gleam with the beauty of their design. The most costly frock is unharmed.

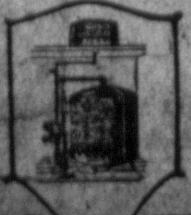

It is the perfect laundering obtained by our using Refinite softened water.

Refinite is Nature's own water softening mineral, not a preparation to "break" the water. It collects and holds the hardening elements, leaving the water softer than falling rain.

Soap lathers instantly in Refinite softened water, and "lifts" the dirt with far less washing. No gummy soap curd forms to stiffen and discolor the clothes. The water is improved for drinking purposes, as well, and so velvety soft that we launder woollens, blankets, silks, laces and all fine fabrics that are washable, without damage to color or fibre.

Let us show you how sweet smelling and snowy white Refinite soft water will make your home.
